

WHITTLEY CLUB NSW

Medical Emergency Plan

Overview

- Prompt first aid may minimize the severity injuries and save lives.
- The **Whittley Club NSW Inc.** aims to make available first aid as quickly as reasonably possible for any injured club member or member of the public present at a club outing or event.

Club Statement

- **The Whittley Club NSW Inc.** currently makes available a fully maintained Automated External Defibrillator (AED) for use if required on scheduled club events.

Responsibilities

- The Commodore of the **Whittley Club NSW Inc.** is the nominated custodian of the AED. The Commodore shall liaise with water based event organisers ensuring the device is available at such events.
- A record book (located with the AED) must be completed for every event that the AED is used. This is critical to ensure that consumables are replaced after each usage of the AED eg: pads and battery.
- The Commodore or the event organiser shall inform the Treasurer that the AED has been used. The Treasurer will ensure prompt purchase of the consumables.
- Members of the **Whittley Club NSW Inc.** may provide and maintain appropriate first aid supplies suitable to their personal needs
